COURSEWORK

UNDERGRADUATE

Data Structures and Algorithms

Open Source Software Engineering

Operating Systems

Database Management System

Machine Learning

SKILLS

PROGRAMMING

HTML • CSS • Javascript • Dart

Python • Java • C • C++

• Tailwind • CSS • Bootstrap • Tailwind

Node • Express • MongoDB • React •

Next • Linux

Familiar:

PHP • Android • MySQL

EXTRACURRICULARS

- **Intercollege Powerlifting winner**
- **Regular Gym goer**

EXPERIENCE

TEXTRAI | SOFTWARE ENGINEER INTERN

Present | Varanasi, India

- Collaborated with a team of software engineers to develop an AI tool that generates high-quality content in a matter of seconds, utilizing both front-end and back-end development skills.
- Successfully shifted the company's website from WordPress to Next.js, improving website performance and enhancing user experience.
- Participated in code reviews and provided valuable feedback to improve the quality and efficiency of the codebase.

THE PALISADOES FOUNDATION | OPEN SOURCE CONTRIBUTOR

Jan 2013 – May 2013 | Palo Alto, CA & Ithaca, NY

- Working on developing an Open Source Community Management Application under The Palisadoes Foundation.
- Contributed code to the project, including implementing new features and fixing bugs, and participated in code reviews to ensure code quality and maintainability.
- Gained valuable experience working in an open-source development environment and contributed to a project that helps to support the growth of other open-source communities.

PROJECTS

DAILY JOURNAL | FULL STACK

Oct-Dec 2022 |

Website made using Nodejs in back end using MongoDB for storing the data.

- Conducted thorough testing to ensure the website was fully functional, responsive, and optimized for different devices and screen sizes.
- Gained experience in full-stack web development, including back-end development using Node.js and database management using MongoDB.

E-COMMERCE WEB APP | FULL STACK

Dec 2022 – Jan 2023

Fully Responsive made using Reactjs and Node js

- Utilized React and Node.js to develop a fully functional e-commerce web application, focusing on both the front-end and back-end of the project.
- Utilized Styled-Components to create a visually appealing and user-friendly interface for the application

AGENCY APP | FRONT END REACT

Jan-Feb 2023 |

The project includes an Agency App built for contact and advertisement purposes. Built using React and Styled Components, fully Responsive.

POSITION OF RESPONSIBILITY

- **Security Committee Member, Student's Parliament** : Worked collaboratively with fellow committee members to identify potential security risks and develop strategies to mitigate them.
- **Share Club, IIT BHU** : Contributed to the development and implementation of the club's vision for a new economic paradigm focused on societal progress as well as economic performance.
